SUIT BY MINING COMPANY

Seek To Recover Money Alleged Due On Promissory Notes.

The Cerro Colorado Mining company has filed three suits in which they seek to recover money alleged due on promissory notes. The defendants are Frank Hoge, W. A. Hoge and F. M. Hoge. The plaintiff company alleges that the defendants have refused, neglected and failed to pay these notes, suits evidently grow out of stock on the plaintiff company. Of W. A. Hoge there is claimed the sum of \$16,500, with interest on \$4,000 from March 19, 1907, at 6 per cent, and on \$12,500 at four per cent from September 21, 1906, to September 21, 1907, and at 6 per cent from September 21, 1907. Of Frank Hoge there is claimed \$2,500 with interest, and of Frank M. Hoge \$2,500 with interest. The notes are all dated at Charleroi, and bear four per cent interest. The plaintiff company is represented by Duncan, Chalfant and Warner.

Called Meeting of Presbytery

A called meeting of the Redstone Presbytery will be held in Monessen Thursday in the First Presbyterian church beginning at 2 o'clock. The purpose of the meeting is to dissolve the pastoral relationship now existing between Rev. W. Harrison Becker and the First Presbyterian church of McKeesport.

HARDWARE STORE AT MONESSEN IS BURGLARIZED

Last night the hardware store of C. S. Fore in Monessen was burglarized and eleven revolvers taken. Ten of these were taken from the front window and the other one from the show case. Entrance was made through the rear of the store. The police were notified but as yet have not succeeded in finding any clue which will lead to the arrest of the thieves.

MINE FIRE IS NOW UNDER CONTROL

The fire which started last Sunday in the No. 1 mine of the Washington Coal and Coke company, at Star Junction, is practically under control but fears are entertained that there may be more trouble. The spread of the flames was stopped yesterday by building brattice work and pouring steam into the mine. It is hoped by this method to smother the blaze.

Arranging For Euchre.
The social committee of Charleroi lodge 494, B. P. O. Elks consisting of Roland W. Brown, E. Willis Hastings and S. Walton Sharpnack are arranging for a euchre to be given in the club house, Thursday evening, October 30th. Playing will begin promptly at 8:15 o'clock.

Undertaking Establishment Is Purchased

I. O. Wycoff, a well known man of Monongahela has purchased the undertaking establishment of F. W. Jones at 427 Fallowfield avenue and has taken charge of the business. Mr. Wycoff for nine years has been connected with Frank Bebout, in Monongahela, and is an experienced man, well able to take care of the local business. He is well known along the valley and is quite popular. We predict for Mr. Wycoff much success in this place and are glad to welcome him here.

Mr. Jones has not decided yet whether he will locate in this place or not.

More Coke Plants Idle.
More than 1000 active coke ovens in the Connellsville region, owned by large companies having headquarters in Pittsburgh, have been closed during the past 10 days on account of the scarcity of water. Despite this fact production of the plants still in operation shows a slight increase for the week.

Mrs. James Carter of Washington, arrived today for a visit with Mr. and Mrs. L. R. Carter of this place.

WILL SOON BE CONNECTED WITH CITY BY TROLLEY

Canonsburg, Oct. 22.—While the work of putting the finishing touches on the trolley line between East Canonsburg and Castle Shannon is going forward, it is not likely that the road will be open to traffic for several weeks yet. At present the road is being belasted and the tracks made solid. The steel viaduct at East Canonsburg is almost completed, and already work cars have crossed the structure, having made the trip from Washington to Castle Shannon.

Before the passenger cars can be operated more power must be obtained, and for the present this will be secured through the means of feed lines. Several of these will be erected within a short time. The work cars run over the line east of Canonsburg are compelled to travel at slow speed, on account of a lack of power. Ultimately a power house will be erected on the property which the company purchased from S. Gillmore Dickson, a mile east of Canonsburg. However, cars will be operated without waiting for the erection of the power plant, and according to statements made by officials of the Pittsburgh Railways company, the through service will be established before Thanksgiving.

WANTS TO ADOPT A YOUNG CHILD

Wanted—To adopt a child. Apply Star theatre. Sam J. Raeco, the popular comedian appearing at the Star theatre in his act, "Consequences" needs the services of a baby and advertises for one. Without a child his act is incomplete, so he desires to adopt a youngster of tender age. Any mother wishing to place her offspring in good hands should apply. The bill this week is a good one. Templeton and Dilla, contortionists, late of Al G. Field's company, have a good act as does Miss Jane Le Blanc, who has a reputation as a soubrette.

FIRE DOES DAMAGE AT BEALLSVILLE

Girl Seeing Light Saves Town From Probable Burning.

Beallsville, Oct. 21.—The home and blacksmith shop of Charles Holder, in Maiden street, were destroyed by fire about 11 o'clock last night. The fire was first discovered in the house and its origin is unknown. The loss will amount to between \$5,000 and \$6000 with no insurance. Mr. Holder allowed his insurance to elapse about a year ago.

The residents of town were awakened by the rolling of the M. E. church bell which was pressed into service. A bucket brigade was formed which saved the adjoining houses. The fire is the largest Beallsville has experienced for many years.

Mr. Holder is a member of the I. O. C. F. and was in California last night installing officers. Mrs. Holder was at the home of her mother, Mrs. Henry Smith. A large part of the furnishings on the downstairs floor was saved but everything on the second floor was consumed.

Underneath the blacksmith shop was a chicken coop. This with 500 choice fowls was burned. Mr. Holder lost all his blacksmith tools.

NEW SCHOOL BUILDING WILL BE ERECTED SOON

Monongahela, Oct. 22.—Actual operations on the new school building, in the Third ward, will commence not later than next week, and it may be possible for the contractor to have men and material on the grounds before the expiration of this week, to begin work on the excavation.

At a special meeting of the board a contract was awarded to James Leaver to do all the excavating necessary for the proposed new building, his bid being \$730.00 in a lump sum.

This new building will be erected on the Chess street side of the school property, adjoining the central school, and in the rear of the frame lunch room. When the time arrives to abandon it for school purposes it will be used as a lunchroom by the pupils, and the frame structure torn down.

Earlier in the evening the board authorized Prof. Dean to employ Mrs. Kiel, the additional teacher elected at the last meeting, and have her begin work as soon as he can arrange for it. It is Prof. Dean's intention to fit up a cloak room in the old building, where classes can hold their recitations, and which will greatly relieve some of the crowded rooms. This arrangement will likely go into effect next Monday.

This Plum Tree Is a Phenomenon

Monongahela, Oct. 22.—At the home of Mrs. Mary Ann Louttit, Riverview, a plum tree is in full blossom. The tree has a reputation as a phenomenon as it never blooms in the spring "tra, la," but instead waits until October.

This is the third successive year the plum tree has blossomed in the fall.

DONORA MAN IS ARRESTED

Michael Iken, of Donora, was arrested this morning by Constable Stablein of this place on information before Justice Rice, by Humane Agent, William Gelder, charged with cruelty to animals. The man is said to have used horses that were not able to be on the street.

Klu Klux Klan Parade.
The Klu Klux Klan of Monongahela with their bands, were in Monessen last evening and paraded the principal streets.

ARRANGING FOR A BIG CELEBRATION

Donora And Webster To Have Doings At Bridge Opening.

A meeting was held last evening by the citizens of Donora, in the Bank of Donora hall and preliminary arrangements were made for a big celebration to be held upon the occasion of the opening of the Donora-Webster bridge at that place. This structure is almost finished and the Donora and Webster citizens will join in making the day of the official opening a memorable one. The date is not known yet as to when this will occur, but when it is announced work will begin in earnest by the committees on arrangement.

Last night's meeting resulted only in the appointing of a general committee, to do whatever work they see fit. Much enthusiasm was shown at the meeting and the Donora citizens will try to have a celebration which will equal if not surpass the one held by Charleroi and Monessen upon the opening of the Monongahela River bridge connecting these two places.

The bridge at Donora will mean a new outlet for that thriving little manufacturing town and will be a great thing for the place. Eventually it is proposed to have a trolley system over this bridge, extending to West Newton. This with the new line that is being laid from Donora to Eldora will give the former place as good trolley connections as any town the size in the country.

Caught in Falling Timbers badly Hurt

Independence, Oct. 22.—While at work in the oil fields at Follansbee, on Friday, Marion Shaler, a well known resident of this place, was caught in some falling timbers and received a fracture of the leg. He was taken to the Steubenville hospital. The leg and foot were so badly crushed that it is feared that it will be necessary to amputate the foot.

Mr. Shaler has been engaged in the oil fields for the past few weeks as a teamster and it was while hauling heavy timbers for a derrick that the accident occurred.

MONONGAHELA FOREIGNERS DO NOT SEE GAME

Tony Givengo, Joe Givengo, Gus Givengo, Frank Paloni, John Ensera, Rosa Pecorra and Samuel Constantino, all of whom are from Pittsburgh, were arrested yesterday by Game Protector Kennedy of Monongahela, near Finleyville and brought to the former place. They are charged with being unnaturalized citizens and hunting without a license.

Although they had no game at the time of being arrested, each had a shot gun and, among them, more than 200 shells. Constantino had a revolver and was also charged with carrying concealed weapons.

At a hearing before Alderman Day of Monongahela each of the men were fined \$25 and costs, amounting in all to \$190.08, which they paid.

Constantino was held for court under \$300 bail, which he was able to furnish.

The men had just started out on their hunting trip and had not shot any game up to the time of being arrested.

BRADDOCK WILL PLAY HERE ON SATURDAY

The Braddock association football team will be the attraction at the local baseball park Saturday in a regular scheduled league contest with the Charleroi team. The game will be called at 3:30.

Colored Voters Of Republican Party Meets

The African American Republican voters held a meeting last night in the Bank of Charleroi hall, for the purpose of rallying the people of the race to the standard of the party.

The meeting was called to order by Rev. A. L. Bouldin, and Robert Peyton was elected chairman. A. Ebbett and D. F. Ferguson were appointed vice presidents, and H. H. Riedout, secretary. The principal address was made by Rev. A. L. Bouldin. He spoke of the Brownsville affair, and said that this matter is being used by the Democrats against the Republicans and at the same time are doing all they can against restoring the soldiers. He said that the only hope for the negro was in Congress. The brutalizing of the wives and daughters as he had seen it in the Jim Crow cars, he said was enough to arouse the manhood in any one's breast, and unless the African American awakes to his peril and acts accordingly, his case is hopeless.

A fairly good crowd was present and the meeting was enthusiastic. Other speakers than Rev. Bouldin were Messrs. Pangburn and Woodson of Monessen; H. Thomas, J. H. Rhodes and D. F. Ferguson, of Charleroi.

BEST SERVICE EVER AT THE W. A. CHURCH

"The best service ever," since the coming of Evangelist Hendrick and Singer Carter to the Washington Avenue Presbyterian church, was held last night, when after a forceful sermon on "The Heavenly Postoffice," seven persons made professions of faith. The church was crowded to the doors last night with people anxious to hear Mr. Hendrick and Mr. Carter.

The speaker told of the different letters or messages which different persons receive. He took up three points along this line, "The message to the doubter," "The message to the person under conviction of sin," "The message to anyone seeking salvation."

Today at noon an interesting service was held in front of Woodward's store at North Charleroi. The evening services on the street have been discontinued on account of the cool weather.

CHARLEROI COMPANY INSTALLING PHONES

The Charleroi Independent Telephone company are installing telephones a new phone nearly every day. The following were installed this week:

U. B. Falt, C. C. Crill, Jas. Wentz, Jno. A. Metz, G. J. Gramati, R. L. Wright, Rev. J. I. Hackett.

L. C. B. A. EUCRE ENJOYABLE AFFAIR

The L. C. B. A. euchre last evening was a very enjoyable affair. The ladies will entertain the friends at progressive euchre the third Wednesday evening of each month.

Mrs. D. E. Sloan and daughter left this morning for Shadyside to spend a few days.

INSPECTION BY OFFICIALS OF THE ROAD

Monongahela Division Is In Good Condition At Present Time.

The annual inspection of the Monongahela Division of the Pennsylvania Railroad, by a party of high officials was made today, the train passing through Charleroi at about 10:45 o'clock. The inspection party consists of S. C. Long, general superintendent of the Western Pennsylvania division; R. T. Morrow superintendent of the Pittsburgh division; A. G. Mitchell, superintendent of this division; Andrew Keiser superintendent of the Conemaugh division, and the various heads of the motive power, engineering and other departments interested.

The party today proceeds over the tracks of the Monongahela division and on the Red Stone branch to Uniontown returning to Pittsburgh this evening.

The tracks along this division are in fairly good condition and are said to be cleaner than ever before from refuse. This state is due to the vigilant efforts of the officers who are employed under the lieutenancy of W. J. Davis. They have traversed the tracks from end to end, and wherever there was refuse dumped on the tracks, notified the residents nearby to desist from the practice, and in many cases made arrests. Signs have been posted along the course.

In the past few days work crews have been at work and have fixed up the tracks nearly everywhere.

The inspection by the above named officials will be continued on another division tomorrow.

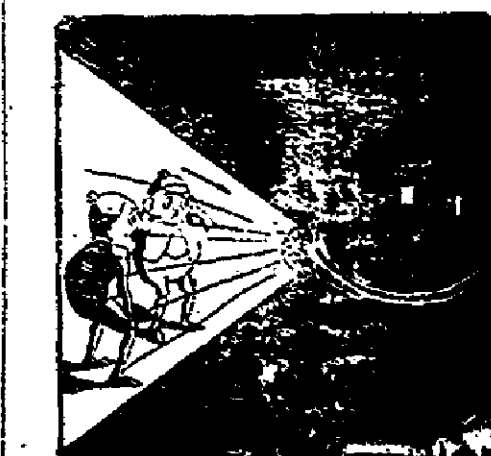

INVESTIGATION IS BEGUN IN RINEHART CASE

Waynesburg, Oct. 22.—Stanley W. Finch, chief national bank examiner of the department of justice E. W. Lawrence, personal representative of Attorney General Charles J. Bonaparte, and H. J. Wagner, stenographer, who arrived here late Tuesday night, have begun work in connection with the Farmers and Drovers bank. They were accompanied here by Norman W. Sayers, of Waynesburg, who was before President Roosevelt representing the depositors, who urged that action be taken in this case.

Several depositors, Attorneys James Purman and R. F. Downey and Norman W. Sayers went to their hotel this morning for a conference. This afternoon the books and records of the bank were examined and the court house visited. Receiver John H. Strawn, of the bank, will also confer with Bank Examiner Finch. The arrival of the examiner caused much comment and the news spread rapidly to many depositors in the county districts.

The three government representatives left late this afternoon for Pittsburgh without stating when they would return to the Greene county capital. When questioned the new investigators merely smiled and remarked that they had nothing to say.

George Disler and Edward Werle were Pittsburgh visitors yesterday.

The Man Who Wrote "America"

At a famous reunion of the Har-
vard class of 1829 Dr. Oliver Wendell
Holmes read a playful poem in which
his gray-haired classmates were
treated still as boys. This was one
verse:

And there's a nice youngster of
excellent pith—
Fate tried to conceal him by naming
him Smith—;

"But he shouted a song for the brave
and the free.

Just read on his medal, "My country
—of thee!"

Yesterday marked the one hundredth
anniversary of the birth of the "nice
youngster."

Samuel Francis Smith was born in
Boston, and in his school days there
won honors in Greek and Latin, be-
sides developing a strongly religious
turn of mind. After his Harvard
course he studied theology at Andover.

In 1832, the year of his graduation
from the seminary he fitted the words
of "America" to one of the tunes in
a collection brought from Germany
and turned over to Dr. Lowell Mason.
Mr. Smith had written many hymns
for the church, including "The Morn-
ing Light is Breaking."

"America" was sung first to a
great public July 4, 1832, at the Park
Street Church, Boston. It became
immediately popular, being taken up
by public schools, Sunday-Schools and
patriotic societies all over the land.

Without the music had much to do
with the success of the hymn. Cer-
tainly Dr. Smith's verses are poor
literature, but they are hallowed now
by seventy-six years of usage, and
critics of their quality are answered
best by the fact that nobody has been
able to provide a national hymn to
displace them.

The tune of "America," which is
the tune also of "God Save the
King," is founded on a seventeenth
century air, originating perhaps in
France, adopted for patriotic use in
both Germany and Switzerland.

from flames was threatened. We are
proud, immensely so, to say, without
exaggeration, that it was the stalwart
fire fighters, from this place which
did more towards the controlling and
extinguishing of the flames at Fayette
City than all the other companies that
responded to the appeal for aid, but
together.

The fire department of Charleroi has
better apparatus, perhaps than any
other town of the valley above Pitts-
burg. In a short time the new
quarters will be finished in the
borough building and they will be
up-to-date, so that indeed this place
will have better equipment and
with a much better department than
many larger cities where there are
paid men for the purpose of fire
fighting.

There was some opposition, to the
granting of the department's request
when the matter of the erection of an
annex to the borough building and
providing more suitable quarters for
the firemen, came up, but it was
overruled, and we are glad of it.
There was not much money in the
treasury we will admit, but the good
use to which it was put is now made
evident.

The Kissing Germ.

Dr. Napoleon Boston, of Philadel-
phia, in a recent address, condemned
the practice of kissing, and declare
that it spreads disease even more
readily than the housefly.

We defer to Dr. Boston's views on
this matter as those of a scientist and
an investigator. But we protest
against his comparison. The sugges-
tion that the housefly is to be con-
sidered side by side with the kiss is
too absurd for any oculator (though
he be only an amateur) to consider
for a moment.

What possible pleasure, what deep
soul-stirring, brain-whirling, thrill,
what earthly bliss, is there in house-
fly?

Not, a bit. But as to a kiss—yum
—yum!

Wants Ticket Split.

Congressman Acheson through his
newspapers is asking the Republican
voters to cut their tickets, as "re-
form is in the air" On August 9,
1905, an Acheson editorial in the Ob-
server set forth:—"Baffled at their
efforts to continue in power, and use
the office of public trust for their
own personal gain, a number of per-
sons have gone into the reform busi-
ness. And they would disrupt the
Republican party for their own ends."

Not Much Disappointment.

It looks as if we were going to
have another one-sided presidential
contest—but Bryan is accustomed to
being defeated so it will not go hard
with him and the Democrats have got
pretty well used to seeing the party
go down under any old banner—so the
country at large will not be dis-
appointed. Anyhow, Bryan makes
more money campaigning than if he
was president.

Time They Are Coming Out.

If there are any more Standard Oil
or Hearst letters to be sprung on this
campaign the time to spring is right
now. The people are going to be
justly suspicious of any eleventh hour
exposure that might just as well have
been brought out earlier in the game.

reported that there is a brisk ex-
change of fair-to-middling watches
for camphorated overcoats.

selves could be prosecuted.

Alleged Forger Finally Caught

Washington, Oct. 22.—Martin Bell,
who has been wanted on a charge of
forgery since May 20, was arrested
yesterday near Phillips Rocks, three
miles beyond Canonsburg, by Detec-
tive E. E. Cummins and James Mil-
sted. Two charges of robbery will
also, in all probability, be lodged
against Bell in the near future.
The defendant will be taken before
Justice E. N. Dunlap this morning.
It is alleged that on May 20 last,
Bell went into the store of David
Gesner, Chestnut street, and purchased
several articles of clothing and in
payment offered Gesner a check for
\$10 that bore the signature of James
Woodruff. Bell is alleged to have
told Gesner that Woodruff had given
him the check for services rendered.
Gesner accepted the check but later
discovered, it is alleged, that Bell
had forged Woodruff's name. Gesner
made information against Bell before
Justice Dunlap.

Metz-Paxton.

At 6 o'clock last night at the home
of the bride's parents, occurred the
wedding of Miss Ethel Paxton and
Mr. Russell A. Metz, prominent young
people of North Charleroi. The cere-
mony was performed by Rev. G. G.
Kerr of the Washington Avenue
Presbyterian church, only the fami-
lies and immediate friends of the
couple being present. The ring
ceremony was used. The happy
couple left last evening at nine
o'clock for Carmichaels where they
will spend a week or two then return
to North Charleroi where they will
reside.

Both of the young people are well
known and popular. The bride is the
daughter of Mr. and Mrs. O. Paxton
and is a favorite among a large circle
of friends. Mr. Metz is the son of
Mr. and Mrs. C. A. Metz and holds a
good clerical position with the Penn-
sylvania Railroad.

THE SCOURING RUSH.

A Queer Plant That Can Be Changed Into a Mineral.

The scouring rush, *Equisetum hiemale*, is an interesting plant which has been put to practical use. In old times its hollow, fluted stems were in great repute for kitchen cleaning purposes. The stems are hollow and are easily separated at the joints. If one would satisfy himself as to the peculiar property that first suggested the use of this rush for scouring purposes he has only to draw a joint across the edge of his teeth to find it like a file.

A very pretty chemical experiment is frequently made with the rush. If one takes a small vial of nitric acid into which any ordinary lead is immersed he will quickly see it dissolve. Literally eaten up by the acid. But what does the scouring rush do under such circumstances?

Immediately upon its introduction to the acid the scuzzing process begins. The green rind of the stem is gradually consumed, the tube, however, still retaining its shape, becoming paler and paler in color until after a few hours the specimen is transformed into a pure white alabaster-like column which defies any further attack from the acid.

On taking it from the vial and washing it carefully in running water the operator holds in his hand a beautiful tube of pure, glassy flint, or silica, an object of great microscopic beauty of construction. The scouring rush is no longer a vegetable, but a mineral, and in observing its skeleton of stone the secret of its utility as a scouring brush is easily understood.—New York Tribune

DUTCH STREET CARS.

The Conductor Carries More Documents Than a Congressman.

Countries may be known by their street cars. The rush and jar of our big cities are exemplified in the rapid, rude transit of its inhabitants. So the character of orderly little Holland may be gathered from observation of her car service. Says J. U. Hignbotham in "Three Weeks in Holland and Belgium":

Street car fare in Holland is 3 cents a trip, and for 4 cents you receive a return ticket. The conductor carries more documents than a congressman. For every fare he opens an aluminum box about 4 by 6 and hands out a receipt or a return ticket, as the case may be.

When the passengers pay their tickets he places the tickets in a leather pouch hung by a strap round his neck. It is important that you retain the receipt given you, for at uncertain intervals a "controleur" gets on the car and examines all receipts, puts his O. K. on them with a rubber stamp and compares the result with the manifest or log carried by the conductor. It is quite the correct thing to tip the conductor with a Dutch cent or two.

Each car has a card inside stating how many places there are, and on each platform is another saying how many people may stand thereon. When the seats and both platforms are full the sign "Vol" is put up and no more are permitted to get aboard. Our car probably had thirty people in it and on the platforms and was turning business away at every crossing.

Color.

Of the light rays that fall upon an object some are taken up by the object and others are reflected. It is to the reflected rays that we are to turn for the explanation of color. For instance, a sheet of white paper is "white" because all the seven kinds of light are reflected from its surface, while the sunflower is "yellow" because when light falls on it the violet, indigo, blue and green rays are selected for absorption, and yellow principally is reflected. The reflective rays, received by the eye, produce the sensation of color. This is an explanation of nearly all the colors that exist.

Poison Hemlock.

Water hemlock is a deadly plant common in most country neighborhoods. Its roots are eaten often in spring by mistake for some edible root, and death frequently results. Cattle are often poisoned by drinking water in marshes where it grows. The poison hemlock from which the Greeks made poisons is a near relative to the water hemlock. It stands from two to seven feet high and has clusters of small white flowers and large, parsleylike leaves. The stalk, being hollow, is often made into whistles by country boys, and many children are poisoned in this fashion.

Handicapped.

"What profession do you think our boy Joe had better adopt?" asked Mrs. Brown.

"I dunno," answered her husband. "Joe is rather handicapped by circumstances. The only profession he's naturally adapted to is that of a capitalist, and I don't quite see where he's going to get the money."

A Tip.

"Look as if you was feelin' pretty good today, James," said the first waiter.

"Yes, tiptop," replied the other. "Some streak o' luck maybe?" "Yes, tiptop tip."—Kansas City Independent.

Sending Good People Home.

The fact that one can grow intensely attached to the town in which they live has been brought to our minds very forcibly the past week by the many people who are leaving Tarentum to work in the glass works at Charleroi. This move we all know was brought about by the burning of the local glass works and the company sending the men to the Monongahela city to work. We have seen entire families at the depot, and bidding good-bye to friends all boarded the train with tears streaming down their face. They seemed heart broken to leave their home town and to sever ties of friendship that binds them there. Scores of people have come to the News office to renew their subscriptions and have the paper forwarded to their address. In every instance they were loathe to leave Tarentum and did so only with the assurance they could expect to be brought back next spring, or as soon as the local factory could be rebuilt. This state of affairs is not because Charleroi is not a good little town, but because all the people who are leaving have been here from ten to eighteen years, coming direct from the old country. Many have reared and educated families, own their homes and have boys in good positions at the different glass factories. They have grown to love the people and their town and this fact only comes to them in reality when they are forced to leave for new quarters. We are sorry to lose them but hope not for long. We are sure of one thing—that Tarentum is sending a force of glass workers and families to Charleroi that our town is proud of and who will make good citizens for the valley town so long as they reside there. We wish them good luck and a speedy return back to their old love.—Tarentum News.

Making More Than a Living

Nearly every man who works steadily makes more than a living. During these slow times the men who have saved something appreciate what it is to have something laid away for a rainy day. A few cents a day soon counts up, and when savings are placed in a bank at a tidy interest the sum soon grows to proportions that make it a safeguard against want when work is not plentiful. Figure up how much more than a living you are making now, and place the difference in this bank. Four per cent. interest paid in savings department.

A WASTED JOKE.

He Meant to Worry His Wife, but He
Didn't After All.

"I don't think I'll try any more prac-
tical jokes on my wife. They don't
pan out well."

"Elucidate."

"You see, she has a habit of hoisting
the window in our room every night.
As I usually go to bed last, she de-
pends on me to hoist it. Sometimes I
forget it, and then there's a wild
squabble. Frequently she wakes me
up in the night and asks me to see if
it is open. If I don't, she nags at me
until morning."

"A night or two ago I resolved to
give her a hard scare. I rolled up a
lot of old newspapers into a long bun-
dle and laid the package down by the
window. Of course she was asleep
and didn't hear me. Then I opened
the window a little way and crept into
bed. Some time after midnight she
awaked me and said:

"Jim, I'm sure you didn't open that
window. It's like a bake oven in the
room. Get up and see."

"So I got up, went to the window
and threw the sash as high as it would
go. As I did so I gave a little shriek
and then flung my bundle down to the
walk below. It struck with a dull
thud, and I dodged behind the curtain
to await developments. The room was
very dark, and I couldn't see my wife,
but I heard her raise herself to a sit-
ting posture. Then she spoke.

"Poor old Jim!" she quietly said.
"He's tumbled out of the window in his
raggedest nightshirt. What a spectacle
he'll be when they find him in the
morning!" Then she lay down again
and went to sleep."

"What did you do?"

"Stood there shivering for a minute
or two and then sneaked into bed."—
Cleveland Plain Dealer.

His Cough Cure.

"In my boyhood there came to our
town," said a clergyman, "a gentle min-
ister who, the very first Sunday of his
incumbency, stopped effectually his
coughing congregation."

"It was a congregation, too, singu-
larly addicted to coughing. Rattling
volleys of coughs ran over it every few
minutes. The minister, indeed, that
first Sunday could hardly make himself
heard. He had rather a weak voice."

"Well, after his sermon had proceed-
ed for ten or twelve minutes, now sud-
denly enough, now drowned under great
waves of coughs, he took a resolution
and when the next outbreak was at its
height he ceased preaching."

"At once the coughing ceased. There
was a profound silence. The minister
smiled."

"My friends," said he, "it seems that
when I stop you stop."

"From that day in that church they
coughed no more."

Grateful words from a Clergyman who suffered intensely from Skin Disease cured by D. D. D. Prescription

Roanoke, Va., June 18, 1904.
D. D. D. Co., 70 Dearborn St., Chicago, Ill.
Gentlemen:—Your letter of recent date re-
ceived and contents noted. It gives one pleasure
to commend D. D. D. to sufferers from skin
disease. For three years I suffered, intensely
so, from a skin disease which developed on the
back of my neck. Its growth was toward the
scalp. Neighbors, prescriptions, salves and ex-
pensive blood medicines were lavishly used. I
at last found relief in D. D. D. used according to
directions. It required just twenty bottles to
effect the cure. I am no longer tortured, so
have no hesitancy in acknowledging to the world
the worth and great virtue of D. D. D.
Yours truly,
REV. L. L. DOWNING.

SUIT BY MINING COMPANY

Seek To Recover Money
Alleged Due On Promissory
Notes.

The Conn. Colored Mining Company has filed three suits in which they seek to recover money alleged due on promissory notes. The defendants are Frank Hoge, W. A. Hoge and F. M. Hoge. The plaintiff company alleges that the defendants have refused, neglected and failed to pay these notes, suits evidently grow out of stock on the plaintiff company. Of W. A. Hoge there is claimed the sum of \$16,500, with interest on \$4,000 from March 19, 1907, at 6 per cent, and on \$12,500 at four per cent from September 21, 1906, to September 21, 1907, and at 6 per cent from September 21, 1907. Of Frank Hoge there is claimed \$2,500 with interest, and of Frank M. Hoge \$2,500 with interest. The notes are all dated at Charleroi, and bear four per cent interest. The plaintiff company is represented by Duncan, Chalfant and Watne.

Called Meeting of Presbytery

A called meeting of the Redstone Presbytery will be held in Monessen Thursday in the First Presbyterian church beginning at 2 o'clock. The purpose of the meeting is to dissolve the pastoral relationship now existing between Rev. W. Harrison Becker and the First Presbyterian church of McKeesport.

HARDWARE STORE AT MONESSEN IS BURGLARIZED

Last night the hardware store of C. S. Pore in Monessen was burglarized and eleven revolvers taken. Ten of these were taken from the front window and the other one from the show case. Entrance was made through the rear of the store.

The police were notified but as yet have not succeeded in finding any clue which will lead to the arrest of the thieves.

MINE FIRE IS NOW UNDER CONTROL

The fire which started last Sunday in the No. 1 mine of the Washington Coal and Coke company, at Star Junction, is practically under control but fears are entertained that there may be more trouble. The spread of the flames was stopped yesterday by building brattice work and pouring steam into the mine. It is hoped by this method to smother the blaze.

Undertaking Establishment Is Purchased

I. O. Wycoff, a well known man of Monongahela has purchased the undertaking establishment of F. W. Jones at 427 Fallowfield avenue and has taken charge of the business.

Mr. Wycoff for nine years has been connected with Frank Bebout, in Monongahela, and is an experienced man, well able to take care of the local business. He is well known along the valley and is quite popular. We predict for Mr. Wycoff much success in this place and are glad to welcome him here.

Mr. Jones has not decided yet whether he will locate in this place or not.

More Coke Plants Idle.

More than 1000 active coke ovens in the Connellsville region, owned by large companies having headquarters in Pittsburgh, have been closed during the past 10 days on account of the scarcity of water. Despite this fact production of the plants still in operation shows a slight increase for the week.

Mrs. James Carter of Washington, arrived today for a visit with Mr. and Mrs. L. R. Carter of this place.

WILL SOON BE CONNECTED WITH CITY BY TROLLEY

Canonsburg, Oct. 22.—While the work of putting the finishing touches on the trolley line between East Canonsburg and Castle Shannon is going forward, it is not likely that the road will be open to traffic for several weeks yet. At present the road is being ballasted and the tracks made solid. The steel viaduct at East Canonsburg is almost completed, and already work cars have crossed the structure, having made the trip from Washington to Castle Shannon.

Before the passenger cars can be operated more power must be obtained, and for the present this will be secured through the means of feed lines. Several of these will be erected within a short time. The work cars run over the line east of Canonsburg are compelled to travel at slow speed, on account of a lack of power. Ultimately a power house will be erected on the property which the company purchased from S. Gillmore Dickson, a mile east of Canonsburg. However, cars will be operated without waiting for the erection of the power plant, and according to statements made by officials of the Pittsburgh Railways company, the through service will be established before Thanksgiving.

WANTS TO ADOPT A YOUNG CHILD

Wanted—To adopt a child. Apply Star theatre.

Sam J. Racco, the popular comedian appearing at the Star theatre in his act, "Consequences" needs the services of a baby and advises for one. Without a child his act is incomplete, so he desires to adopt a youngster of tender age. Any mother wishing to place her offspring in good hands should apply.

The bill this week is a good one. Templeton and Dilla, contortionists, late of Al G. Field's company, have a good act as does Miss Jane Le Blanc, who has a reputation as a soubrette.

FIRE DOES DAMAGE AT BEALLSVILLE

Girl Seeing Light Saves
Town From Probable
Burning.

Beallsville, Oct. 22.—The home and blacksmith shop of Charles Holder, in Maiden street, were destroyed by fire about 11 o'clock last night. The fire was first discovered in the house and its origin is unknown. The loss will amount to between \$5,000 and \$6000 with no insurance. Mr. Holder allowed his insurance to elapse about a year ago.

The residents of Beallsville were awakened by the tolling of the M. E. church bell which was pressed into service. A bucket brigade was formed which saved the adjoining houses. The fire is the largest Beallsville has experienced for many years.

Mr. Holder is a member of the I. O. C. F. and was in California last night installing officers. Mrs. Holder was at the home of her mother, Mrs. Henry Smith. A large part of the furnishings on the downstairs floor was saved but everything on the second floor was consumed.

Underneath the blacksmith shop was a chicken coop. This with 500 choice fowls was burned. Mr. Holder lost all his blacksmith tools.

NEW SCHOOL BUILDING WILL BE ERECTED SOON

Monongahela, Oct. 22.—Actual operations on the new school building, in the Third ward, will commence not later than next week, and it may be possible for the contractor to have men and material on the grounds before the expiration of this week, to begin work on the excavation.

At a special meeting of the board a contract was awarded to James Leaver to do all the excavating necessary for the proposed new building, his bid being \$700.00 in a lump sum.

This new building will be erected on the Chess street side of the school property, adjoining the central school, and in the rear of the frame lunch room. When the time arrives to abandon it for school purposes it will be used as a lunchroom by the pupils, and the frame structure torn down.

Earlier in the evening the board authorized Prof. Dean to employ Mrs. Kiel, the additional teacher elected at the last meeting, and have her begin work as soon as he can arrange for it. It is Prof. Dean's intention to fit up a cloak room in the old building, where classes can hold their recitations, and which will greatly relieve some of the crowded rooms. This arrangement will likely go into effect next Monday.

This Plum Tree Is a Phenomenon

Monongahela, Oct. 22.—At the home of Mrs. Mary Ann Loutitt, Riverview, a plum tree is in full blossom. The tree has a reputation as a phenomenon as it never blooms in the spring "tra la," but instead waits until October.

This is the third successive year the plum tree has blossomed in the fall.

DONORA MAN IS ARRESTED

Michael Iken, of Donora, was arrested this morning by Constable Stabilein of this place on information before Justice Rice, by Humane Agent, William Gelder, charged with cruelty to animals. The man is said to have used courses that were not able to be on the street.

ARRANGING FOR A BIG CELEBRATION

Donora And Webster To
Have Doings At Bridge
Opening.

A meeting was held last evening by the citizens of Donora, in the Bank of Donora hall and preliminary arrangements were made for a big celebration to be held upon the occasion of the opening of the Donora-Webster bridge at that place. This structure is almost finished and the Donora and Webster citizens will join in making the day of the official opening a memorable one. The date is not known yet as to when this will occur, but when it is announced work will begin in earnest by the committee on arrangement.

Last night's meeting resulted only in the appointing of a general committee, to do whatever work they see fit. Much enthusiasm was shown at the meeting and the Donora citizens will try to have a celebration which will equal if not surpass the one held by Charleroi and Monessen upon the opening of the Monongahela River bridge connecting these two places.

The bridge at Donora will mean a new outlet for that thriving little manufacturing town and will be a great thing for the place. Eventually it is proposed to have a trolley system over this bridge, extending to West Newton. This with the new line that is being laid from Donora to Eldora will give the former place as good trolley connections as any town the size in the country.

Caught in Falling Timbers badly Hurt

Independence, Oct. 22.—While at work in the oil fields at Follansbee, on Friday, Marion Shafer, a well known resident of this place, was caught in some falling timbers and received a fracture of the leg. He was taken to the Steubenville hospital. The leg and foot were so badly crushed that it is feared that it will be necessary to amputate the foot.

Mr. Shafer has been engaged in the oil fields for the past few weeks as a teamster and it was while hauling heavy timbers for a derrick that the accident occurred.

MONONGAHELA FOREIGNERS DO NOT SEE GAME

Tony Givengo, Joe Givengo, Gus Givengo, Frank Paloni, John Ensara, Rosa Pecorra and Samuel Constantino, all of whom are from Pittsburgh, were arrested yesterday by Game Protector Kennedy of Monongahela, near Finleyville and brought to the former place. They are charged with being unnaturalized citizens and hunting without a license.

Although they had no game at the time of being arrested, each had a shot gun and, among them, more than 200 shells. Constantino had a revolver and was also charged with carrying concealed weapons.

At a hearing before Alderman Day of Monongahela each of the men were fined \$25 and costs, amounting in all to \$190.05, which they paid.

Constantino was held for court under \$300 bail, which he was able to furnish.

The men had just started out on their hunting trip and had not shot any game up to the time of being arrested.

BRADDOCK WILL PLAY HERE ON SATURDAY

The Braddock association football team will be the attraction at the local baseball park Saturday in a regular scheduled league contest with the Charleroi team. The game will be called at 3:30.

Colored Voters Of Republican Party Meets

The African American Republican voters held a meeting last night in the Bank of Charleroi hall, for the purpose of rallying the people of the race to the standard of the party.

The meeting was called to order by Rev. A. L. Bouldin, and Robert Peyton was elected chairman. A. Ebbett and D. F. Ferguson were appointed vice presidents, and H. H. Riedout, secretary. The principal address

was made by Rev. A. L. Bouldin. He spoke of the Brownsville affair, and said that this matter is being used by the Democrats against the Republicans and at the same time are doing all they can against restoring the soldiers. He said that the only hope for the negro was in Congress. The brattling of the wives and daughters as he had seen it in the Jim Crow cars, he said was enough to arouse the manhood in any one's breast, and unless the African American awakes to his peril and acts accordingly, his case is hopeless.

A fairly good crowd was present and the meeting was enthusiastic. Other speakers than Rev. Bouldin were Messrs. Pangburn and Woodson of Monessen; H. Thomas, J. H. Rhodes and D. F. Ferguson, of Charleroi.

BEST SERVICE EVER AT THE W. A. CHURCH

"The best service ever," since the coming of Evangelist Hendrick and Singer Carter to the Washington Avenue Presbyterian church, was held last night, when after a forceful sermon on "The Heavenly Postoffice," seven persons made professions of faith. The church was crowded to the doors last night with people anxious to hear Mr. Hendrick and Mr. Carter.

The speaker told of the different letters or messages which different persons receive. He took up three points along this line, "The message to the doubter," "The message to the person under conviction of sin," "The message to anyone seeking salvation."

Today at noon an interesting service was held in front of Woodward's store at North Charleroi. The evening services on the street have been discontinued on account of the cool weather.

CHARLEROI COMPANY INSTALLING PHONES

The Charleroi Independent Telephone company are installing telephones a new phone nearly every day. The following were installed this week:

U. B. Pait, C. C. Crill, Jas. Wentz, Jno. A. Metz, G. J. Gramati, R. L. Wright, Rev. J. I. Hackett.

L. C. B. A. EUCBRE ENJOYABLE AFFAIR

The L. C. B. A. euchre last evening was a very enjoyable affair. The ladies will entertain the friends at progressive euchre the third Wednesday evening of each month.

Mrs. D. E. Sloan and daughter left this morning for Shadyside to spend a few days.

INSPECTION BY OFFICIALS OF THE ROAD

Monongahela Division Is In
Good Condition At Present
Time.

The annual inspection of the Monongahela Division of the Pennsylvania Railroad, by a party of high officials was made today, the train passing through Charleroi at about 10:45 o'clock. The inspection party consists of S. C. Low, general superintendent of the Western Pennsylvania Division; R. T. Morrow, superintendent of the Pittsburgh division; A. G. Mitchell, superintendent of this division; Andrew Keiser superintendent of the Conemaugh division, and the various heads of the motive power, engineering and other departments interested.

The party today proceeds over the tracks of the Monongahela division and on the Red Stone branch to Uniontown returning to Pittsburgh this evening.

The tracks along this division are in fairly good condition and are said to be cleaner than ever before from refuse. This state is due to the vigilant efforts of the officers who are employed under the lieutenancy of W. J. Davis. They have traversed the tracks from end to end, and wherever there was refuse dumped on the tracks, notified the residents nearby to desist from the practice, and in many cases made arrests. Signs have been posted along the course.

In the past few days work crews have been at work and have fixed up the tracks ready for inspection.

The inspection by the above named officials will be continued on another division tomorrow.

INVESTIGATION IS BEGUN IN RINEHART CASE

Waynesburg, Oct. 22.—Stanley W. Finch, chief national bank examiner of the department of justice E. W. Lawrence, personal representative of Attorney General Charles J. Bonaparte, and H. J. Wagner, stenographer, who arrived here late Tuesday night, have begun work in connection with the Farmers and Drivers bank. They were accompanied here by Norman W. Sayers, of Waynesburg, who was before President Roosevelt representing the depositors, who urged that action be taken in this case.

Several depositors, Attorneys James Furman and R. F. Downey and Norman W. Sayers went to their hotel this morning for a conference. This afternoon the books and records of the bank were examined and the court house visited. Receiver John H. Strawn, of the bank, will also confer with Bank Examiner Finch. The arrival of the examiner caused much comment and the news spread rapidly to many depositors in the county districts.

The three government representatives left late this afternoon for Pittsburgh without stating when they would return to the Greene county capital. When questioned the new investigators merely smiled and remarked that they had nothing to say.

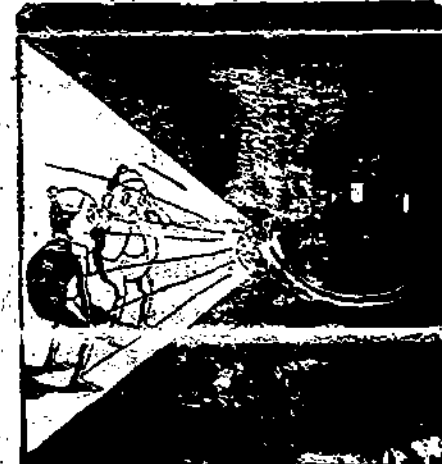

George Disler and Edward Werle were Pittsburgh visitors yesterday.

The Man Who Wrote "America"

At a famous reunion of the Har-
 vard class of 1829 Dr. Oliver Wendell
 Holmes read a playful poem in which
 his gray-haired classmates were
 treated still as boys. This was one
 verse:

And there's a nice youngster of
 excellent pith—
 Fate tried to conceal him by naming
 him Smith—;
 But he shouted a song for the brave
 and the free.

Just read on his medal, "My country
 —of thee!"

Yesterday marked the one hundredth
 anniversary of the birth of the "nice
 youngster."

Samuel Francis Smith was born in
 Boston, and in his school days there
 won honors in Greek and Latin, be-
 sides developing a strongly religious
 turn of mind. After his Harvard
 course he studied theology at Andover.

In 1832, the year of his graduation
 from the seminary he fitted the words
 of "America" to one of the tunes in
 a collection brought from Germany
 and turned over to Dr. Lowell Mason.
 Mr. Smith had written many hymns
 for the church, including "The Morn-
 ing Light is Breaking."

"America" was sung first to a
 great public July 4, 1832, at the Park
 Street Church, Boston. It became
 immediately popular, being taken up
 by public schools, Sunday-Schools and
 patriotic societies all over the land.
 Doubtless the music had much to do
 with the success of the hymn. Cer-
 tainly Dr. Smith's verses are poor
 literature, but they are hallowed now
 by seventy-six years of usage, and
 critics of their quality are answered
 best by the fact that nobody has been
 able to provide a national hymn to
 displace them.

The tune of "America," which is
 the tune also of "God Save the
 King," is founded on a seventeenth
 century air, originating perhaps in
 France, adopted for patriotic use in
 both Germany and Switzerland.

from flames was threatened. We are
 proud, immensely so, to say, without
 exaggeration, that it was the stalwart
 fire fighters, from this place which
 did more towards the controlling and
 extinguishing of the flames at Fayette
 City than all the other companies that
 responded to the appeal for aid, but
 together.

The fire department of Charleroi has
 better apparatus, perhaps than any
 other town of the valley above Pitts-
 burg. In a short time the new
 quarters will be finished in the
 borough building and they will be
 up-to-date, so that indeed this place
 will have better equipment and
 with a much better department than
 many larger cities where there are
 paid men for the purpose of fire
 fighting.

There was some opposition, to the
 granting of the department's request
 when the matter of the erection of an
 annex to the borough building and
 providing more suitable quarters for
 the firemen, came up, but it was
 overruled, and we are glad of it.
 There was not much money in the
 treasury we will admit, but the good
 use to which it was put is now made
 evident.

The Kissing Germ.

Dr. Napoleon Boston, of Philadel-
 phia, in a recent address, condemned
 the practice of kissing, and declare
 that it spreads disease even more
 readily than the housefly.

We defer to Dr. Boston's views on
 this matter as those of a scientist and
 an investigator. But we protest
 against his comparison. The sugges-
 tion that the housefly is to be con-
 sidered side by side with the kiss is
 too absurd for any oculator (though
 he be only an amateur) to consider
 for a moment.

What possible pleasure, what deep
 soul-stirring, brain-whirling, thrill,
 what earthly bliss, is there in house-
 fly?

Not, a bit. But as to a kiss—yum-
 yum!

Wants Ticket Split.

Congressman Acheson through his
 newspapers is asking the Republican
 voters to cut their tickets, as "re-
 form is in the air" On August 9,
 1905, an Acheson editorial in the Ob-
 server set forth:—"Baffled at their
 efforts to continue in power, and use
 the office of public trust for their
 own personal gain, a number of per-
 sons have gone into the reform busi-
 ness. And they would disrupt the
 Republican party for their own ends."

Not Much Disappointment.

It looks as if we were going to
 have another one-sided presidential
 contest—but Bryan is accustomed to
 being defeated so it will not go hard
 with him and the Democrats have got
 pretty well used to seeing the party
 go down under any old banner—so the
 country at large will not be dis-
 appointed. Anyhow, Bryan makes
 more money campaigning than if he
 was president.

Time They Are Coming Out.

If there are any more Standard Oil
 or Hearst letters to be sprung on this
 community the time to spring is right
 now. The people are going to be
 justly suspicious of any eleventh hour
 exposure that might just as well have
 been brought out earlier in the game.

The season for political canards is
 about closed.

Electric Sparks.

With the ice man selling coal in
 winter there is no reason why the
 baseball player should not switch to
 vaudeville stunts when the season
 closes.

Further trade activity is noted.
 At the sign of the three balls it is
 reported that there is a brisk ex-
 change of fair-to middling watches
 for camphorated overcoats.

You'll never catch on if you don't
 try; and after catching on, don't be

 men might be poevish.

Harriman says a better feeling
 exists toward the railroads. It is
 evident that he has not been consult-
 ing the people who used to ride on
 passes.

After it has been fully advertised
 that there is, and also that there is
 not, any engagement between the
 Duke of the Abruzzi and Miss Elkins,
 the Duke is coming over to this
 country on the laudable errand of find-
 ing out where he stands.

Roosevelt is to become an editor on
 his retirement from the White House.
 We wouldn't want to be on the police
 force in the town where his paper is
 published.

They are charging Mr. Kern with
 carrying a tooth brush in his pocket;
 but the Democratic masses could for-
 give that if he had not let his railroad
 pass drop out of his pocket.

 does he would soon become famous—

 Railway Employees, has been nomi-
 nated for congress in Detroit, Mich.,
 by the Democrats.

St. Louis, Mo., has a man named
 John Samuel, who is 92 years of age,
 and still takes an interest in organ-
 ized labor. His specialty is co-opera-
 tion.

The Trade Union Congress of
 England passed a resolution asking
 parliament to enact a law under which
 the organizers of strike-breaking
 movements, as well as the men them-
 selves could be prosecuted.

Alleged Forger Finally Caught

Washington, Oct. 22.—Martin Bell,
 who has been wanted on a charge of
 forgery since May 20, was arrested
 yesterday near Phillips Rocks, three
 miles beyond Canonsburg, by Detec-
 tive E. E. Cammus and James Mil-
 sted. Two charges of robbery will
 also, in all probability, be lodged
 against Bell in the near future.
 The defendant will be taken before
 Justice E. N. Dunlap this morning.
 It is alleged that on May 29 last,
 Bell went into the store of David
 Gesner, Chestnut street, and purchased
 several articles of clothing and in
 payment offered Gesner a check for
 \$10 that bore the signature of James
 Woodruff. Bell is alleged to have
 told Gesner that Woodruff had given
 him the check for services rendered,
 Gesner accepted the check but later
 discovered, it is alleged, that Bell
 had forged Woodruff's name. Gesner
 made information against Bell before
 Justice Dunlap.

Metz-Paxton.

At 6 o'clock last night at the home
 of the bride's parents, occurred the
 wedding of Miss Ethel Paxton and
 Mr. Russell A. Metz, prominent young
 people of North Charleroi. The cere-
 mony was performed by Rev. G. G.
 Kerr of the Washington Avenue
 Presbyterian church, only the fami-
 lies and immediate friends of the
 couple being present. The ring
 ceremony was used. The happy
 couple left last evening at nine
 o'clock for Carmichaels where they
 will spend a week or two then return
 to North Charleroi where they will
 reside.

Both of the young people are well
 known and popular. The bride is the
 daughter of Mr. and Mrs. O. Paxton
 and is a favorite among a large circle
 of friends. Mr. Metz is the son of
 Mr. and Mrs. C. A. Metz and holds a
 good clerical position with the Penn-
 sylvania Railroad.

THE SCOURING RUSH.

A Queer Plant That Can Be Changed Into a Mineral.

The scouring rush, *Equisetum*, hitherto an insignificant plant, has been put to practical use. In old times its hollow, fluted stems were in great repute for kitchen cleaning purposes. The stems are hollow and are easily separated at the joints. If one would satisfy himself as to the peculiar property that first suggested the use of this rush for scouring purposes he has only to draw a joint across the edge of his teeth to find it like a file.

A very pretty chemical experiment is frequently made with the rush. If one takes a small vial of nitric acid into which any ordinary lead is immersed he will quickly see it dissolve. Literally eaten up by the acid. But what does the scouring rush do under such circumstances?

Immediately upon its introduction to the acid the sizzling process begins. The green pulp of the stem is gradually consumed, the tube, however, still retaining its shape, becoming paler and paler in color until after a few hours the specimen is transformed into a pure white alabaster-like column which defies any further attack from the acid.

On taking it from the acid and using it carefully in running water the operator holds in his hands a beautiful tube of pure, glassy flint, or silica, an object of great microscopic beauty of construction. The scouring rush is no longer a vegetable, but a mineral, and in observing its skeleton of stone the secret of its utility as a scouring brush is easily understood.—New York Tribune

DUTCH STREET CARS.

The Conductor Carries More Documents Than a Congressman.

Countries may be known by their street cars. The rush and jar of our big cities are exemplified in the rapid, rule transit of its inhabitants. So the character of orderly little Holland may be gathered from observation of her car service. Says J. C. Higginbotham in "Three Weeks in Holland and Belgium":

Street car fare in Holland is 3 cents a trip, and for 4 cents you receive a return ticket. The conductor carries more documents than a congressman. For every fare he opens an aluminum box about 4 by 6 and hands out a receipt or a return ticket, as the case may be.

When the passengers pay their tickets he places the tickets in a leather pouch hung by a strap round his neck. It is important that you retain the receipt given you, for at uncertain intervals a "controlleur" gets on the car and examines all receipts, puts his O. K. on them with a rubber stamp and compares the result with the manifest or log carried by the conductor. It is quite the correct thing to tip the conductor with a Dutch cent or two.

Each car has a card inside stating how many places there are, and on each platform is another saying how many people may stand thereon. When the seats and both platforms are full the sign "Vol" is put up and no more are permitted to get aboard. Our car probably had thirty people in it and on the platforms and was turning business away at every crossing.

Color.

Of the light rays that fall upon an object some are taken up by the object and others are reflected. It is to the reflected rays that we are to turn for the explanation of color. For instance, a sheet of white paper is "white" because all the seven kinds of light are reflected from its surface, while the sunflower is "yellow" because when light falls on it the violet, indigo, blue and green rays are selected for absorption, and yellow principally is reflected. The redective rays, received by the eye, produce the sensation of color. This is an explanation of nearly all the colors that exist.

Poison Hemlock.

Water hemlock is a deadly plant common in most country neighborhoods. Its roots are eaten often in spring by mistake for some edible root, and death frequently results. Cattle are often poisoned by drinking water in marshes where it grows. The poison hemlock from which the Greeks made poisons is a near relative to the water hemlock. It stands from two to seven feet high and has clusters of small white flowers and large, parsleylike leaves. The stalk, being hollow, is often made into whistles by country boys, and many children are poisoned in this fashion.

Handicapped.

"What profession do you think our boy Joe had better adopt?" asked Mrs. Brown.

"I dunno," answered her husband. "Joe is rather handicapped by circumstances. The only profession he's naturally adapted to is that of a capitalist, and I don't quite see where he's going to get the money."

A Tip.

"Look as if you was feelin' pretty good today, James," said the first waiter.

"Yes, tiptop," replied the other. "Some streak o' luck maybe?" "Yes; tiptop tip."—Kansas City Independent.

Sending Good People Here.

The fact that one can grow intensely attached to the town in which they live has been brought to our minds very forcibly the past week by the many people who are leaving Tarentum to work in the glass works at Charleroi. This move we all know was brought about by the burning of the local glass works and the company sending the men to the Monongahela city to work. We have seen entire families at the depot, and bidding good-bye to friends all boarded the train with tears streaming down their face. They seemed heart broken to leave their home town and to sever ties of friendship that binds them there. Scores of people have come to the News office to renew their subscriptions and have the paper forwarded to their address. In every instance they were loathe to leave Tarentum and did so only with the assurance they could expect to be brought back next spring or as soon as the local factory could be rebuilt. This state of affairs is not because Charleroi is not a good little town, but because all the people who are leaving have been here from ten to eighteen years, coming directly from the old country. Many have married and educated families, own their homes and have boys in good positions at the different glass factories. They have grown to love the people and their town and this fact only comes to them in reality when they are forced to leave for new quarters. We are sorry to lose them but hope not for long. We are sure of one thing—that Tarentum is sending a force of glass workers and families to Charleroi that our town is proud of and who will make good citizens for the valley town so long as they reside there. We wish them good luck and a speedy return back to their old love.—Tarentum News.

May Sell Rabbits.

Dealers, not only in Charleroi, but in many other Pennsylvania towns are laboring under the impression that the game laws of Pennsylvania forbid the sale and disposal of captured squirrels and rabbits, but this is a mistake. Section 12 of the game laws, as amended by the legislature in session in 1905, says: The open season for squirrels in this commonwealth shall be from the first day of October to the first day of December in each year, and it shall be unlawful for any person to kill more than six squirrels in one day. The open season for hare or rabbit shall be the month of November of each year. Since this was enacted the legislature has changed the season for rabbits from the 15th of October to the first bits from the month of November to that of December of each year.

Section 13 of the same act has to do with sale or exposing for sale of game, and says: "No person shall purchase, sell or expose for sale or have in his possession for any purpose whatsoever, the dead body or any part thereof of any game—quadruped or the wings enumerated in the preceding section of this act, if the same have been caught, killed or taken within this commonwealth—save only during the open season for such kinds of game in this state and for fifteen days thereafter. Each and every person who shall offend against any of the provisions of this section shall be liable to a penalty of ten dollars for the dead body of each hare or rabbit or squirrel, and fifty dollars for the body of each bear or cub, or any part thereof purchased, sold, exposed for sale, or had in possession for sale."

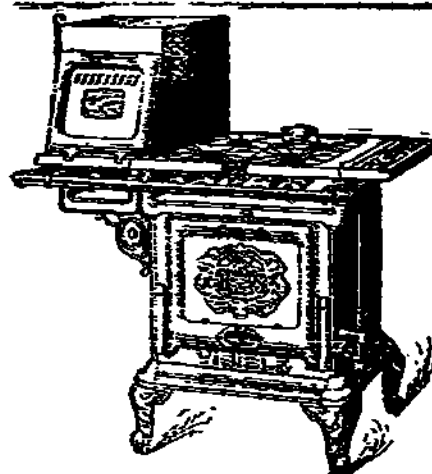

From the above it is clearly seen that rabbits and squirrels may be bought and sold in the state during the open season. If our hunters and dealers will take advantage of the provisions of this act we are assured that they will find many persons ready to buy game.

Horticultural Exhibit.

An exhibition of horticultural products of Pennsylvania will be a special feature of Farmer's Week at State College next winter. Large consignments of apples are being received and placed in cold storage for this purpose. It is hoped that this will be the largest and best exhibit of apples and other garden and orchard products ever made in the state. Every county should be represented. The co-operation of Granges, county organizations, local societies and individual growers is earnestly solicited. The success of the exhibit is now assured, but assistance in every section is needed to make it representative of the entire state. Farmers and fruit growers in different sections are requested to work up collections and send them as soon as possible to the Department of Horticulture State College, Pa. Detailed instructions will be furnished persons who can assist in this work.

Making More Than a Living

Nearly every man who works steadily makes more than a living. During these slow times the men who have saved something appreciate what it is to have something laid away for a rainy day. A few cents a day soon counts up, and when savings are placed in a bank at a tidy interest the sum soon grows to proportions that make it a safeguard against want when work is not plentiful. Figure up how much more than a living you are making now, and place the difference in this bank. Four per cent. interest paid in savings department.

Humor

A WASTED JOKE.

He Meant to Worry His Wife, but He
Didn't After All.

"I don't think I'll try any more prac-
tical jokes on my wife. They don't
pay out well."

"Elucidate."

"You see, she has a habit of hoisting
the window in our room every night.
As I usually go to bed last, she de-
pends on me to hoist it. Sometimes I
forget it, and then there's a wild
squabble. Frequently she wakes me
up in the night and asks me to see if
it is open. If I don't, she nags at me
until morning."

"A night or two ago I resolved to
give her a hard scare. I rolled up a
lot of old newspapers into a long bun-
dle and laid the package down by the
window. Of course she was asleep
and didn't hear me. Then I opened
the window a little way and crept into
bed. Some time after midnight she
nudged me and said:

"Jim, I'm sure you didn't open that
window. It's like a bake oven in the
room. Get up and see."

"So I got up, went to the window
and threw the sash as high as it would
go. As I did so I gave a little shrill
and then flung my bundle down to the
walk below. It struck with a dull
thud, and I dodged behind the curtain
to await developments. The room was
very dark, and I couldn't see my wife,
but I heard her raise herself to a sit-
ting posture. Then she spoke.

"Poor old Jim!" she quietly said.
"He's tumbled out of the window in his
raggedest nightshirt. What a spectacle
he'll be when they find him in the
morning!" Then she lay down again
and went to sleep."

"What did you do?"
"Stood there shivering for a minute
or two and then sneaked into bed."—
Cleveland Plain Dealer.

His Cough Cured.

"In my boyhood there came to our
town," said a clergyman, "a gentle mi-
nister who, the very first Sunday of his
incumbency, stopped effectually his
coughing congregation."

"It was a congregation, too, singu-
larly addicted to coughing. Rattling
rattles of coughs ran over it every few
minutes. The minister, indeed, that
first Sunday could hardly make himself
heard. He had rather a weak voice."

"Well, after his sermon had proceed-
ed for ten or twelve minutes, now au-
dible enough, now drowned under great
waves of coughs, he took a resolution,
and when the next outbreak was at its
height he ceased preaching."

"At once the coughing ceased. There
was a profound silence. The minister
emiled."

"My friends," said he, "it seems that
when I stop you stop."

"From that day in that church they
coughed no more."

Skin Disease**

**cured by
D. D. D. Prescription**

Roadside, Va., June 18, 1904.
D. D. D. Co., 70 Dearborn St., Chicago, Ill.
Gentlemen:—Your letter of recent date re-
ceived and contents noted. It gives me pleasure
to commend D. D. D. to sufferers from skin
disease. For three years I suffered intensely
from a skin disease which developed on the
back of my neck. It was a most distressing
condition. Neighbors, prescriptions, salves and ex-
pensive blood medicines were lavishly used. I
at last found relief in D. D. D. used according to
directions. It required just twenty bottles to
cure the cure. I am no longer tortured, so I
have no hesitancy in acknowledging to the world
the worth and great virtue of D. D. D.
Yours truly,
REV. L. L. DOWNING.
